TECHNICAL SPECIFICATION

Maximum load	100kg (220lbs) without buoyancy
Maximum water depth	0 - 600mm (24")
Speed range	0.2 - 12kph (0.12 - 7.5mph)
Fill / empty times	Approx 2 minutes to max depth
Temperature range	From ambient - 40°C (104°F)
Treadmill dimensions (Excluding display) E	
Excluding ramps	L 2150mm (85") x W 860mm (34") x H 1265mm (50")
Including ramps	L 3435mm (135") x W 860mm (34") x H 1265mm (50")
Complete system weight	
Dry	650kg (1433 lbs)
Full	2150kg (4740lbs)
Capacity	1500 litres (330 gals, 396 US gals)
Max distance between treadmill and plant equipment	8m (314")
Power	240V single phase 50hz 16A (60hz option available)

Product Highlights

Warranty

Powered by Siemens with **24 month drive and controls warranty** for peace of mind (terms apply)

Water Treatment

Manual chemical dosing and UV filtration to maintain water quality. Water dump valve prevents fouled water returning to water tank

Belt Incline

Powered treadmill incline to focus on specific patient needs

Reversible Belt Direction

This feature provides a wider variety of therapy options

High Capacity Transfer Pumps

Rapid filling and emptying times enables you to see more patients

Stride & Depth Indicators

Indicators add a visual marker reference to enable the clinician to gauge patient movement and recovery progress

Touch Screen Console

Adjustable controls positioning for added convenience

Side Platforms

Allow the clinician to accompany a patient in the treadmill in comfort and safety

Easy Clean

Powered treadmill lift for easy sump cleaning

Pre-set Options

Intuitive controls for water, speed and incline with time and distance

Access Ramps

Easy patient access with floor level ramps

Hi-vis End Guards

Provides visual guide to therapists of training area

Walk Through Design

Important for spinal cases and large breeds. Can ease patient comfort and confidence

Door Handle

Easy operation, patented two stage door latch for safety

Control From Portable Devices

Remote operation using an app available for IOS or Android devices

Portable Device Control

Total control using a portable device. All the functions from the touch screen control at your fingertips.

- [+] Water level management
- [+] Incline management
- [+] Treadmill speed control
- [+] Time and distance monitoring
- [+] Maintenance and diagnostic functions

Warranty and Service Support

2 year warranty period (terms apply) as standard following which a variety of service plans and packages, are available please contact Hydro Physio further details.
