TECHNIK®

The Revolution
In Hand Hygiene

Incorporating the

dyson airblade wash+dry

“First impressions count”

TECHNIK®

dyson airblade wash+dry

“Clean air is forced through the HEPA filter at 341mph, literally scraping water from hands.”

A range of sinks specifically designed to harness the power of the Dyson Airblade Wash + Dry Tap

“Other hand dryers can blow viruses and bacteria onto your hands, some of it from faeces.”

HACCP approved HEPA filter removes 99.9% of bacteria. Precise, intuitive switching from water to air infrared zones operate the Wash + Dry tap.

No need to touch dirty taps or buttons, and no drips which can cause slips on the washroom floor.

dyson airblade wash+dry

Hygiene Conscious Environments

TECHNIK are the UK's leading manufacturer of stainless steel equipment for hygiene conscious industries. TECHNIK and DYSON are both British innovators in design and manufacture and this collaboration has created a range of hygienic hand wash basins specifically designed for the DYSON Airblade Wash + Dry Tap.

The combination offers a neat solution for hand hygiene technology. It has generated great interest in a wide range of high care sectors. The Wash + Dry Sinks are ideal for high footfall areas, where speed and hygiene are of utmost importance.

If you don't see exactly what your washroom requires within this brochure for further specification ideas, please contact our design team who will be able to help.

TECHNIK & Dyson Wash + Dry Sinks

- Airblade™ technology in a tap. Elimination of waste / tissues
- Unheated air removes water from the hands, drying them hygienically in just 12 seconds
- Costs up to 69% less to run than other hand dryers and up to 97% less than paper towels [1]
- Produces 4.0g of CO2 per dry. Up to 74% less than other hand dryers and up to 71% less than paper towels [2]
- Wash & dry hands in the sink area, no slip and fall risk with excess water on floors
- Hygienic and robust 304 grade stainless steel sinks and basins
- Touch-free operation
- NSF / HACCP approved
- Ready for fitting, all designs come with concealed waste, pipework and Airblade tap assembly in place
- Full 5 year guarantee on tap and sink

Fast drying time

Most hygienic

Reduced slip risk

Cost less to run

Low CO_2 emissions

Year Guarantee

UK products

Approved

[1] For calculations visit dyson.co.uk/calcs

[2] In collaboration with Carbon Trust, Dyson has produced a method to measure the environmental impact of electrical appliances and paper towels. The carbon calculations were produced using GaBi software provided by PE International, based on product use over 5 years and using the US as a representative country of use. Dry times for products were evaluated using DTM 769.

Basin Mounted Wash + Dry Trough Sink

WALL / FLOOR MOUNTED

PRODUCT CODE
517/007500

- High care, hygiene critical industry recommended
- 1 - 5 stations (Island models 2 - 10)
- Available with or without legs
- Create banks of island units with a back to back formation
